

Who Am I?

I'm Tim Kerimov, a software developer based in Canada with a passion for creating web applications, building games, and developing mobile apps. With a deep love for coding and problem-solving, I strive to craft digital experiences that are not only functional but also enjoyable.

My expertise lies in full-stack web development, where I utilize tools like React, HTML/CSS, JavaScript, and Python. I'm also proficient in game development using Unity and C#.

Over the past few years, I've had the pleasure of working on diverse projects, from developing responsive websites to designing immersive game environments. My work has been recognized with [specific achievement], and I continuously strive to push the boundaries of my craft.
